BMC ELECTROPLAST

BMC is an IMS certified company founded in 1986 and is engaged in R&D and manufacturing of medium voltage switchgears, instrument transformers and various cast resin components.

ABOUT US

BMC was the brainchild of a visionary technocrat, Late Mr. Santanu Mitra, who founded the organisation in 1986.

The present leadership consists of four technocrat directors:

Mr. Subodh Kr. Banerjee (Co-Founder & Chairman), Mr. Rajiv Bhargava (Technical Director),
Mr. Girish V. Magre (Senior Director), Mr. Siddhartha Mitra, (Senior Director).

Two engineers, Mr. Samrat Banerjee (Senior M.R.) and Mr. Saptarshi Mitra (M.R.), execute the role of Management Representatives on behalf of the leadership.

BMC has a combined workforce of 150 plus employees comprising of graduate engineers, technical supervisors & skilled workmen, engaged in innovation & technology enhancement of power systems equipment.

BMC TODAY

35+	150+	15+	100+
Years of Establishment	Clients	Technology Consultancies	Manpower

BMC is the first SME in India to have been certified by DSIR (DEPT. OF SCIENCE AND INDUSTRY RESEARCH) as an R&D center for MV switchgear .

An ISO 9001:2015, ISO 14001:2015 AND OHSAS 18001:2007 CERTIFIED COMPANY

TECHNOLOGY TRANSFER & MANUFACTURING CONSULTANCY WING FOR MEDIUM VOLTAGE SWITCHGEARS

Switchgear panels with voltage ratings up to 33kV are termed as medium voltage switchgear panels. They are a major equipment for protection and metering of the electrical power distribution systems. These panels are used for switching high-tension loads such as transformers, motors or capacitor banks.

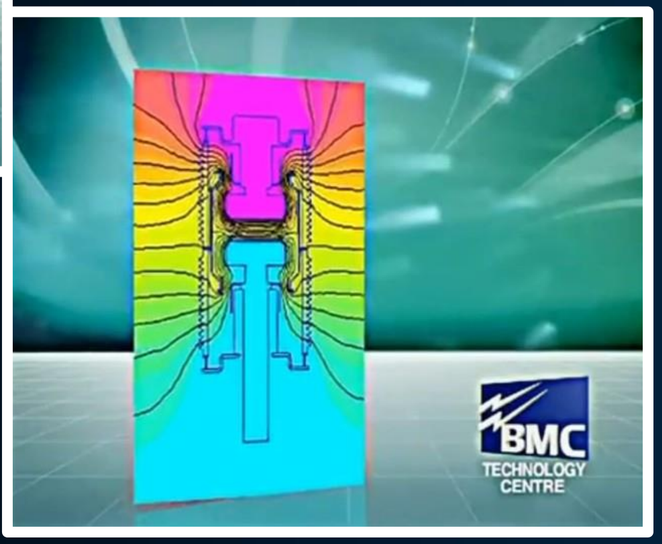

CONSULTANCY FLOW-

Understanding and finalizing of the technical specification as required by the specific utility, geographical zone and country, abiding to domestic and international standards, as applicable.

Design and manufacturing of prototypes, for type testing by accredited labs for the specific zone and country, as per requirements guided by international standards, in the customer's brand name.

TECHNOLOGY TRANSFER & MANUFACTURING CONSULTANCY WING FOR MEDIUM VOLTAGE SWITCHGEARS

Provide the customer with detailed manufacturing drawings of the panels, for assembly at their own premises and supply of major components, in kit form such as vacuum circuit breakers (VCB), current transformers (CT) and potential transformer(PT), epoxy cast components- all of which are major components in the panel.

Provide training for assembly, routine testing and other needs for customer to set up their own manufacturing or assembly plant at the customer premises.

Why Choose Us?

- Over 25 patents/design registrations on Switchgears/parts of Switchgears.
- Pioneers in mechanism design in India.
- Pioneers in Epoxy cast Vacuum Interrupter (Embedded poles) for vacuum contactors worldwide.
- Unique compact design of MV Vacuum contactors.

Why Choose Us?

- Unique low cost CSS design for windmills in India.
- First in India to offer technology of VCB /VI design to Indian manufacturers.
- First in Asia to offer technology of VCB /VI design to European & overseas companies.

Why Choose Us ?

- Represent as "Technical/Marketing Consultants" for High Power lab in Korea, Vacuum furnace manufacturer from Germany & component manufacturers for VI (Single window solution on Vacuum Switchgears)
- Experience to design & sell Retrofit VCBs of over 25 versions
- Experience of manufacturing custom built/own designed Epoxy Cast Dry Type Instrument Transformers (CTS/PTs) both for Indoor & Outdoor application
- Experience of manufacturing custom built/own designed Epoxy Cast Switchgear Parts.

OUR PARTNERS AND CLIENTS-

BMC ELECTROPLAST PVT. LTD.

Regd.Off. & Works 1: 130/22 B.S.Industrial Estate, Hanspukur, Bakhrahat Road, Kolkata -700104 (W.B.) India.

Works 2: K-133,MIDC, Waluj, Aurangabad -431136 (M.S.) India.

Works 3: 6/2,Behala Industrial Estate, 620,D. H.Road, Kolkata-700034 India.

Works 4: Ground Floor, B-1305 G.D. Colony, Mayur Vihar Phase-3, New Delhi ,PIN Code: 110096
