# BMC ELECTROPLAST

BMC is an IMS certified company founded in 1986 and is engaged in R&D and manufacturing of medium voltage switchgears, instrument transformers and various cast resin components.

# ABOUT US

BMC was the brainchild of a visionary technocrat, Late Mr. Santanu Mitra, who founded the organisation in 1986.

The present leadership consists of four technocrat directors:

Mr. Subodh Kr. Banerjee (Co-Founder & Chairman), Mr. Rajiv Bhargava (Technical Director),
Mr. Girish V. Magre (Senior Director), Mr. Siddhartha Mitra, (Senior Director).

Two engineers, Mr. Samrat Banerjee (Senior M.R.) and Mr. Saptarshi Mitra (M.R.), execute the role of Management Representatives on behalf of the leadership.

BMC has a combined workforce of 150 plus employees comprising of graduate engineers, technical supervisors & skilled workmen, engaged in innovation & technology enhancement of power systems equipment.

# BMC TODAY

| 35+ | 150+ | 15+ | 100+ |
| --- | --- | --- | --- |
| Years of Establishment | Clients | Technology Consultancies | Manpower |

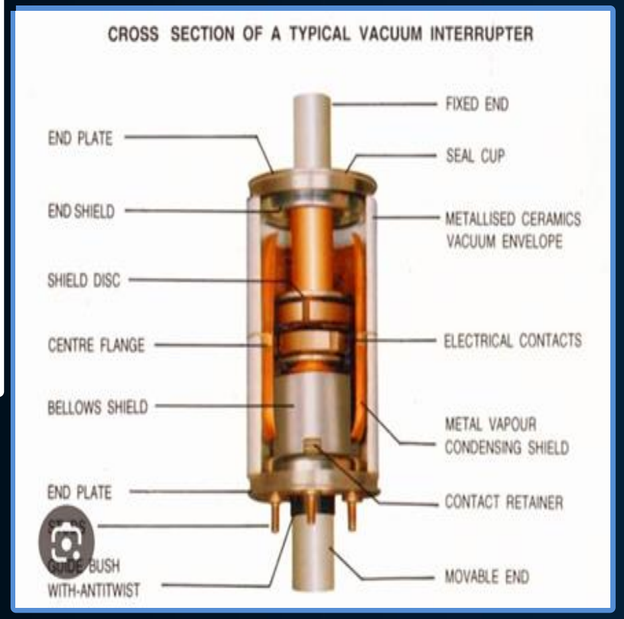

BMC is the first SME in India to have been certified by DSIR (DEPT. OF SCIENCE AND INDUSTRY RESEARCH) as an R&D center for MV switchgear .

An ISO 9001:2015, ISO 14001:2015 AND OHSAS 18001:2007 CERTIFIED COMPANY

# SPECIALISED CONSULTANCY WING FOR TECHNOLOGY AND MANUFACTURING SOLUTIONS OF VACUUM INTERRUPTERS FOR MEDIUM VOLTAGE SWITCHING APPLICATIONS

**A vacuum interrupter is an advanced technological device used in electrical switching applications for Circuit Breakers, Contractors, Ring Main Units, Reclosers and Load Break Switches to extinguish arcs and interrupt current flow in medium and high-voltage circuits. A vacuum interrupter (VI) is considered a high-tech product due to its advanced materials, precision engineering for vacuum sealing and innovative arc-extinguishing mechanisms for ultra-high voltage insulation. It uses advanced physics & materials science to control high-energy electrical arcs and enables environmentally friendly power switching, replacing harmful $SF_6$ gas. Interrupters provide unmatched speed, efficiency, and reliability in modern electrical grids.**

- Technology transfer of Vacuum Interrupter design, manufacturing and testing.
- Detailed design transfer of VI rated from 1kV to 72kV rated voltage with a rated current ranging from 80A to 4000A and with short time fault current rating from 6kA to 44kA.
- Availability of Vacuum Interrupter designs (copyright and patented) for Contactors, Switches and Circuit Breakers exclusively for inductive, capacitive and Generator loads.

# BMC IS A SINGLE POINT SOLUTION PROVIDER AS A HOUSE OF EXCELLENCE FOR VACUUM INTERRUPTERS

- Team BMC is well conversant with all capital equipment specifications, sourcing, commercial data and machinery ranges required for Vacuum Interrupter manufacturing and testing such as Clean Room requirements, Vacuum Furnace specifications, Vacuum Integrity Test Set-ups, High Voltage Seasoning of Interrupters etc.

- Comprehensive knowledge on latest technologies and materials used for Vacuum Interrupter manufacturing.

- BMC has experience of representation of world class Vacuum Furnace manufacturers and Vacuum Contact manufacturing companies like PVS Tepla- USA and Sirui- China.

- BMC is a representative for Shaanxi Baoguang- China, who are the largest Vacuum Interrupter manufacturers worldwide.

- Successful execution of Technology Transfer of Vacuum Interrupter manufacturing to one company in Spain, one in Turkey and two companies in India, all of which are presently under successful operation.

# BMC IS A SINGLE POINT SOLUTION PROVIDER AS A HOUSE OF EXCELLENCE FOR VACUUM INTERRUPTERS

- BMC team has trained designers of Vacuum Interrupters from global switchgear companies such as: Westinghouse- USA, Crompton Greaves-India and GEC/Areva/Schneider- France.

- BMC is also an OEM manufacturer of Vacuum Switchgears and Vacuum Contactors as well as various critical switchgear components such as Instrument Transformers and Epoxy components. Hence, BMC has practical awareness on Vacuum Interrupter application for switching applications from 1kV to 66kV rated voltage range.

- Two decades of vast experience in Vacuum Interrupter technology and over 35 years in Medium Voltage Vacuum Circuit Breaker and Vacuum Contactor technology and manufacturing.

- BMC has global exposure to Vacuum Switchgears through various interactions with JV partners worldwide as well as various University and Research Institutes.

# Why Choose Us?

- Over 25 patents/design registrations on Switchgears/parts of Switchgears.
- Pioneers in mechanism design in India.
- Pioneers in Epoxy cast Vacuum Interrupter (Embedded poles) for vacuum contactors worldwide.
- Unique compact design of MV Vacuum contactors.

# Why Choose Us?

- Unique low cost CSS design for windmills in India.
- First in India to offer technology of VCB /VI design to Indian manufacturers.
- First in Asia to offer technology of VCB /VI design to European & overseas companies.

# Why Choose Us ?

- Represent as "Technical/Marketing Consultants" for High Power lab in Korea, Vacuum furnace manufacturer from Germany & component manufacturers for VI (Single window solution on Vacuum Switchgears)
- Experience to design & sell Retrofit VCBs of over 25 versions
- Experience of manufacturing custom built/own designed Epoxy Cast Dry Type Instrument Transformers (CTS/PTs) both for Indoor & Outdoor application
- Experience of manufacturing custom built/own designed Epoxy Cast Switchgear Parts.

# OUR PARTNERS AND CLIENTS-

# BMC ELECTROPLAST PVT. LTD.

Regd.Off. & Works 1: 130/22 B.S.Industrial Estate, Hanspukur, Bakhrahat Road, Kolkata -700104 (W.B.) India.

Works 2: K-133,MIDC, Waluj, Aurangabad -431136 (M.S.) India.

Works 3: 6/2,Behala Industrial Estate, 620,D. H.Road, Kolkata-700034 India.

Works 4: Ground Floor, B-1305 G.D. Colony, Mayur Vihar Phase-3, New Delhi ,PIN Code: 110096
